Focus on Gnosis support to customers

This month has been full of events where Gnosis had the opportunity to give its useful scientific support about its products. We attended a congress in Turkey to show Quatrefolic® support to women, and we gave a speech in Rome to illustrate vitaMK7® features to a group of Pakistani doctors.

A clear sign that Gnosis never leaves its clients alone!

FOCUS ON:

Mythocondro®: check latest data on efficacy

New clinical studies show that Mythocondro® is effective in the treatment of moderate Knee Osteoarthritis.

The randomized, double-blind, placebo controlled study was carried out in participation with the University of Pavia (Italy), on 60 individuals (male and female), supplemented with low dosage of Mythocondro® (600 mg/day) for 12 weeks.

New chart on stability of vitaMK7

Also in formulation, vitaMK7® shows an optimal stability with different calcium salts without any coating which increases non-natural substances. In the entire analytical tests, the Official USP assay method for Menaquinone-7 was applied.

When it comes to innovation and high quality, Gnosis is always there!
